## THE LISTENING TAPESCRIPT

If you're lucky, you have more good memories than bad ones. I'm very lucky. I have lots of good memories. I don't have many painful memories. I don't know why. Lots of bad things happened to me when I was younger but I don't really have strong memories of them. I do have very clear memories of happy times. My earliest memory is of my first day in kindergarten. I guess I was three. I remember playing in the sand and eating it. I don't remember my mother getting angry though. My most wonderful memory is a holiday to Mexico when I was ten. I remember every sound and smell so clearly. When I look at our family photos, the memories of what we did come flooding back. I'd like to relive those memories one day.
