

Job Title:

DeFi Researcher (*Hiring for all levels – Intern / Junior / Senior*)

About the Company

- Ignight Capital is a friends & family office that operates a legitimate private investment vehicle.
- Our founders have hands-on experience in investing and financing many of the most valuable and well-known blockchains | protocols across both primary and secondary markets since 2017.

About the Job

- We are looking for a passionate DeFi Researcher to join our team and help explore, analyze, and push the boundaries of decentralized finance.
- The role involves proactively researching emerging protocols, yield strategies, tokenomics, governance models, and other DeFi innovations in order to keep Ignight Capital at the forefront of industry trends.
- This position requires strong analytical skills and a deep curiosity about how DeFi can redefine traditional financial markets.

Primary Responsibilities

- Conduct in-depth research on DeFi protocols, focusing on yield farming strategies, token economics, and governance models.
- Build and refine scoring models to evaluate DeFi projects, providing thorough technical due diligence for potential investments.
- Stay on top of market trends by continuously monitoring social channels, analytics dashboards, and industry reports to spot emerging opportunities.
- Contribute to the firm's DeFi research pipeline by analyzing project fundamentals and assessing risk/reward profiles of new crypto initiatives.

Skills & Qualifications

- **0+ years of experience** in a digital asset or blockchain environment. (Open to all levels, from interns to seasoned professionals.)
- **Passionate about DeFi**, with a proven interest in areas such as yield farming, liquidity provisioning, and governance participation.
- **Strong understanding of** smart contract-enabled platforms; familiarity with the technical aspects of smart contracts is a plus.
- Demonstrable **analytical skills** (Excel, data analysis) and the ability to generate actionable insights from on-chain and off-chain data; Coding Proficiency is definitely a plus.
- Fluency in **English and Korean**.
