## 1. Describe these pictures.

In the first picture, I can see four young women sitting in a café. They are smiling and talking while enjoying different kinds of food like burgers, fries, and drinks. It looks like they are good friends spending time together. The atmosphere seems friendly and relaxed.

The second photo shows a family of four having a meal at home. I can see a man, a woman, and two children sitting at a table with healthy food like vegetables and chicken. They all look happy and are enjoying their time.

Overall, these two pictures illustrate /demonstrate two different ways of enjoying food.

2. What are the advantages of eating at a restaurant?

3. Why do many people prefer eating at home?

2. What are the advantages of eating at a restaurant?

- I think one clear advantage of eating out is that it saves time and effort. You don't have to worry about cooking, setting the table, or washing the dishes after the meal. This is especially helpful for busy people or those who want to relax after a long day at work. For example, last Friday we went to a nearby restaurant for dinner because my mom didn't want to cook after work.

3. Why do many people prefer eating at home?

- In my opinion, many people choose to eat at home because it is healthier and more

affordable. At home, you can pick fresh ingredients and control how much oil, salt, or sugar you use. This helps people stay healthy and also saves money, especially for large families or those on a budget.
