Version 1.4

## Preface

The purpose of this message is to be an informative guide to Fascists/National Socialists on the continuation of O9A/ONA (Order of Nine Angles) influence within our circles. In this message we will explain the core basis of O9A beliefs, why they are not real Fascists, how to identify them and why this is important. This PDF is meant to be small, so for you all who are educated on this subject, this was done on purpose. It was done for the sake of not wanting to discourage people from reading this after seeing an endless wall of text, because it is apparently an issue that does indeed exist.

To make one final thing clear: the authors of this message are followers of the National Socialist worldview. *We wish for the total dissociation and zero tolerance for the order of nine angles.*

Everything underlined is O9A vocabulary, often used exclusively.

## O9A: A Basic Introduction

The Order of Nine Angles (abbreviated as O9A/ONA) is an esoteric left-hand spiritual path. It is not a group or formal organization; it is an idea. The ‘order’ in O9A, is often misleading. Now, everything here on out is total bullshit and does not really exist but it is their philosophy that I shall describe. Now, the O9A like to refer to their beliefs as the Numinous way/Sinister way. O9A believe in magick and dark gods called the Nekalah. The Nekalah is described as a powerful race that live in a plane called the Acausal. The way the universe is described is as follows, the Causal is a plane within the universe is where we exist, the material world, cause and effect exists in this plane. The acausal is a plane in which cause and effect does not exist and it is the plane the Nekalah lives in. The O9A wish to build a sort of “bridge” between the causal and acausal to let the Nekalah reign supreme on our world. Where there is a flow of acausal energy to the causal is called a Nexion. Their reasoning is they imagine dark gods willing to help humans evolve into a sort of higher being. This all sounds reasonable, especially the last sentence but I will explain later on how this really does take a turn. The O9A advocate to invoke this return the usage of halfway gods they consider “dark” such as Saturn himself employing human and other blood magic/sacrificial magic to gain gnosis outside of the divine will, the methods are akin to selling your soul slowly - jew magic.

Although O9A is a just a spiritual path, a mere idea, it forms organizations. Most notable organization is the Tempel ov Blood. The Tempel ov Blood is a militant-type group that follow the O9A beliefs and little is known about them. They claimed to have killed people, as sacrifice to the Nekalah, and [they torture themselves](#). [This is their official YouTube channel](#)

The Origins of the Order of Nine Angles began around a man named David Myatt. The claim that he created the O9A is rejected. David Myatt is best known for serving as an outer representative of the O9A. He first considered himself a National Socialist and was good writer but then became more concerned with the O9A. After infiltrating a radical Jihadist organization -

in the United Kingdom he became a unironic Jihadist in the 80's and 90's. Nowadays he isn't a Muslim but isn't a National Socialist either.

Keep in mind I am summarizing a lot here.

## **Infiltration and Subversion**

The O9A heavily practice the use of Insight roles, insight roles are an exclusive O9A term for a person who infiltrates a group of people to gather intel, subvert, etc. This section is the main reason to worry about the O9A because if they have the chance, they will enter your circles and attempt to convert your friends and take over. A great example is the case of Atomwaffen Division, after Brandon Russel's arrest, AWD got infiltrated. Vincent Snyder/Rape (John Cameron Denton) rose to the top of AWD and he was O9A. He made Iron Gates (Post-apocalyptic Tempel ov Blood novel) and Liber 333 (A manual-type book by Tempel Ov Blood) required readings for Atomwaffen Division. AWD completely degraded afterwards, supporting drug dealers and hailed anyone explicitly evil for the sake of being evil, like communists and Jihadists. Not just Atomwaffen, Siegeculture in general has been nearly completely subverted (Just take a look at the last few pages of SIEGE 4<sup>th</sup> edition). The company that published Iron Gates, Martinet Press, Is owned by a man named Joshua Caleb Sutter, alias Swiss Discipline, was a featured staff member of Siegeculture. None of this is a knock of SIEGE, James Mason and SIEGE is great, but the infiltration has gone out of hand.

The O9A argue they are National Socialists/Fascists to get into our circles and are fully aware of the worldview we possess. In other words, they know what they are doing in most cases. Noctulians are known to partake in infiltration. A noctulian is best described as a sort of Übermensch within the human race, a larp basically, none of them are even slightly close to being the Übermensch. They are essentially private owned feds; they use Jewish tactics for their own benefit. O9A will try to convert others into their own ways, it most usually done in private conversation. The O9A will convert people when they see someone that has "sinister potential", basically meaning they are more of the edgy side. They did this with Atomwaffen, converting many people. The O9A are in every group notable, such as AWD, SKD, Patriot Front, other official organizations, and many telegram channels.

The recruitment tactics of the o9a are subversive as well, with a major factor being an effort to sell themselves as an archetypal reflection of the desires elaborated on by the figure who is being indoctrinated; the concept of sinister will change itself to fit the figure who is being brought in. The presence of an effort to create a power gap between the initiator and the initiate is also interesting and demonstratively aids the order significantly in pulling in feebler types who wish to fit in.

## Fake Fascists

As established before, the O9A will claim to be Fascists to get into your circles, and sometimes they will just reveal they are O9A and will argue O9A in of itself is Fascist. Most people who are O9A claim they are Fascists. This claim is false, they have never been Fascists, and for sure never will be. For one, they subvert our circles for their own benefits and the more dedicated O9A do not give a shit about what happens to us, and recognize they are different from us.

For two, they follow a completely different worldview. Their idea of an organic state is different, they only want to help their non-existent gods reign on our world, as said in the basic introduction. Whatever comes of letting their demiurgic gods reign is their “organic state”. Remember they themselves view their gods as evil, dark, and sinister, so take what you will from that.

But now onto analyzing their beliefs. [The O9A are hyper-individualistic and anarchists](#), and not anarchist as in a means to an end type anarchist, full blown anarchy and reject structure and only care about their individual worth. They do not care about the wellbeing of every other brother within our race. The article listed was written by [Anton Long](#) (pseudonym), he, (or they) is seen as the top guy when it comes to O9A. The article is all up for grabs, the last couple paragraphs will surely show you what they are about. [Here](#) in this article, they admit they view National Socialism as a mere tool, an ideology, not a worldview. They only use us as a tool to advance their ideas. Here also: [Article of an O9A guy promoting homosexuality but not transgenders](#).

The o9a is inherently the dual opposite of the Fascist doctrine as they wish to formulate a return to the absolute primal chaos they call Nos, they consider that instead of the creator deity the lack of creation itself and the total lack of order functions as the true absolute. This is directly contradictory to the Aryan creator myth within which the creator is absolute and all else is a manifestation of his will with the “primal chaos” being in O9A doctrine without the will of the creator and therefore in contradiction with Aryan teachings.

If you actually read O9A books such as [The Sinister Tradition](#) or Myatt’s books, you might actually start to agree with what is said, promoting self-improvement and such. Issue is, once you are pulled into this consensus of the basic idea of O9A as being positive, things take a turn. Once you join a O9A online circle, they will totally degrade you, far from your initial interpretation of their books and now you’re sucked into complete degeneracy. Most notable O9A circle was on Discord and Telegram, it was called Radical Headquarters or RHq. Members were: doing drugs, perverted degenerates, some were unironic communists, and overall nothing close as to being a “noctulian”. The O9A moral standard arises from the absolute opposition to what currently is considered “sane” therefore prompting them to possess some values we would consider valid within the current day - but this isn’t a reflection of the noctulian being on the right track and instead one of our society being on the wrong. The O9A will always embody the polar opposite of what the powers that be employ as a moral standard because it is crucial for them to be outsiders and dissidents within the system to complete the luminous path.

With all this said we can come to conclusion that O9A are simply Jewish. They may deny it but everything they say and do is promoted by the jew. They lie and twist the truth and subvert -

anyone that is not with them. Both the O9A and the Jew is a virus to the National Socialist so we must treat them as such. Jews and O9A both want to suck the life out of you and feed off us like a virus. The Jew would feed off you until there's nothing left. The O9A has information and guides on what they call Astral Vampirism, believing they can be a literal virus, that sucks some sort of life juice from you, via tendrils, and they like to feed off people, unironically.

The O9A has to say this themselves:

*"the question is not about a particular type of political world-view, be it fascism or whatever, being contradictory or not to Satanism. The question is about all political forms being forms - structures which can be used, for a Satanic purpose, to achieve Satanic goals [...] my general point concerned a novice who might get involved with politics as a learning experience - for perhaps a year or so [...] when I say that National-Socialist Germany aided the sinister dialectic, it is mis-understood: as me being a 'National-Socialist' or something of the kind. I am simply stating a fact of Aeonics - as I do when I say that a future State or Empire which was inspired by National-Socialism would also aid the achievement of Satanic aims, over centuries."*

For Satanists our worldview is simply an egotistical tool.

*"To conclude, the O9A is not and never was a neo-Nazi Occult movement or sub-culture. Neither was it, and neither is it, a Satanic Occult movement or sub-culture as the "satanic" and as "Satan" are conventionally understood, either in terms of Nazarene ontology and eschatology or in terms of the so-called egoistic "satanism" propagated in modern times by Howard Stanton Levey (aka Anton LaVey) and his followers."*

## Identifying O9A

The O9A use esoteric vocabulary as you saw but they also have [symbols](#) they created which would be interpreted as scribbles to a random onlooker. Many of these symbols can be seen [here](#) as well. The information already listed in this text will already contribute most to your effort of being able to lookout for these people.

Suspicious activity can include talking frequently about more dark subjects and exposing you or your group to more sinister artwork. But they might claim irony if you call them out or will flat out say they are O9A because again, many believe they are Fascists so they might feel like they fit in. The more dedicated O9A will not say anything about being such a thing. They preach about dropping morality completely and it is one of their main ideas. If one were to say they are O9A you should kick them out your circle, no questions asked, they are too dangerous to have around. With all this said it is actually easy to spot them if you have this in the back of your head. But you must remember they could be talking to your friends privately, getting closer and closer to making them fucked up. So, the only solution is to inform your friends of this new age occult shit known as the Order of Nine Angles.

## Closing Notes

After being in many circles for the longest time, this article was surely needed. People either sympathize with the O9A or have no clue what they are, it is usually the latter. So, we think it is worthwhile to take the time to understand then dissociate/remove the O9A. A National Socialist has a billion issues in this age and the O9A are undoubtedly one of the most dangerous and influential on us. Hopefully you will have used this article wisely.

Now ask yourself if this is who you would like to associate with:
